Biology BS Experiential Requirement

1. Research in a Department of Biology Laboratory (6 hours total, at least two semesters)
   A. BIOL:3994 Introduction to Research
      • Students need to arrange a lab project with a Biology instructor in order to have permission to enroll
   B. BIOL:4999 Honors Research in Biology
      • This course is restricted to students doing honors in the major. See advisor for additional requirements for honors in the major.

2. Upper-Level Investigative Lab or Field Course (4 hours)
   • Each Track has a unique list of investigative laboratory options on the degree audit
   • Students on the Integrative Track can take a Field Course or lab. See your advisor for options.

3. BIOL:4897 Teaching Internship (4 hours)
   • Assist the TA in a teaching laboratory setting. Must be taken over two semesters to fulfill the requirement. Options to assist in BIOL:1140, BIOL:1411, BIOL:3245, and BIOL:3656. See instructor for permission.

4. Combine 4 hours to fulfill this requirement.
   • BIOL:3994, BIOL:4999, BIOL:4897, BIOL:4898 or LATH:3001* (*requires admission to the Latham Program)

5. Approved Internship
   • See advisor for approval and course registration
