

Department of Biology Policy on Regression and Duplication

1. Taking **BIOL:1140** Human Biology: Nonmajors or **BIOL:1141** Human Biology: Health Professions *after* **BIOL:1411** Foundations of Biology *and* **BIOL:1412** Diversity of Form and Function is considered regression, and students will then not receive credit for **BIOL:1140** or **BIOL:1141** toward graduation.
2. Students will receive credit toward graduation for only one of these courses because of similar content: **BIOL:1140** Human Biology: Nonmajors or **BIOL:1141** Human Biology: Health Professions. Students are allowed to use SGO (Second-Grade-Only) option between **BIOL:1140** and **BIOL:1141**.

Effective Fall 2021
