“Tumor Beta2-adrenergic receptor expression, post-diagnostic beta-blocker drug use and association with breast cancer-specific survival”

Michael O’Rorke, PhD  
Assistant Professor  
College of Public Health, Epidemiology  
University of Iowa  
Member of the Holden Comprehensive Cancer Center

Thursday, November 1st  
11:30 am – 12:20 pm  
Ellig Classroom (N120 CPHB)

TARGET AUDIENCE: This conference will be of particular interest and value to the faculty, staff, and students of the College of Public Health and the Health Science Colleges.

LEARNING OBJECTIVES:  
At the conclusion of this seminar, the learner will be able to:  
1. Highlight the underlying biology between the stress hypothesis and cancer risk/progression  
2. Provide an overview of methodologies pertinent to pharmacoepidemiology and molecular epidemiology  
3. Showcase some findings from a molecular pharmacoepidemiological study

DISCLOSURE STATEMENT: “I do not have any financial interests or other relationships with any manufacturers of products or providers of services I might be discussing in my presentation.”

The University of Iowa prohibits discrimination in employment, educational programs, and activities on the basis of race, creed, color, religion, national origin, age, sex, pregnancy, disability, genetic information, status as a U.S. veteran, service in the U.S. military, sexual orientation, gender identity, associational preferences, or any other classification that deprives the person of consideration as an individual. The university also affirms its commitment to providing equal opportunities and equal access to university facilities. For additional information on nondiscrimination policies, contact the Director, Office of Equal Opportunity and Diversity, The University of Iowa, 202 Jessup Hall, Iowa City, IA, 52242-1316, 319-335-0705 (voice), 319-335-0697 (TDD), diversity@uiowa.edu.

Individuals with disabilities are encouraged to attend all University of Iowa sponsored events. If you are a person with a disability who requires an accommodation in order to participate in this program, please contact The Department of Epidemiology in advance at 319-384-1540.
