mTOR Regulation of Catabolism

Do-Hyung Kim, PhD
Associate Professor
Biochemistry, Molecular Biology, and Biophysics
University of Minnesota

1:00 - 2:00 pm
Monday, November 14, 2016
1289 CBRB (Kelch)

A light lunch will be served

Everyone in a position to control the content of this educational activity will disclose to the CME provider and to attendees all relevant financial relationships with any commercial interest.

EDUCATIONAL OBJECTIVES: Upon completion of this course, participants should be able to describe the mechanisms of diabetes, obesity and related disease processes; effectively evaluate research findings; and provide insights and applications relevant to the diagnosis and treatment of diabetes, obesity and related diseases.

Individuals with disabilities are encouraged to attend all University of Iowa-sponsored events. If you are a person with a disability who requires an accommodation in order to participate in this program, please contact Maren Rogers (335-7933) or Marian Carson (384-4684) in advance.
