MASTER’S THESIS SEMINAR

Wren Renquist

The University of Iowa
Department of Biology
Advisers: Andrew Forbes, Ph.D.
Maurine Neiman, Ph.D.

Does the genome of a putatively specialist moth (*Schinia gracilenta*) contain a signal of the Indigenous cultivation of its host plant (*Iva annua*)?

**Tuesday, April 4**
**10:00am**

In-person and via Zoom:
Room 106, Biology Building East (BBE)

https://uiowa.zoom.us/j/94855466652?pwd=WlNyZ0twaVBjT29KRjIxNzbFNsL3JDdz09
Meeting ID: 948 5546 6652
Passcode: Schinia

Individuals with disabilities are encouraged to attend all University of Iowa sponsored events. If you are a person with a disability who requires a reasonable accommodation in order to participate in this program, please contact the Biology office in advance at (319) 335-1050.
